Through the Ronaldo football methodology, the Academy will stimulate young players to strive for their dreams, to thrive on the playing field, and to cultivate good life values.

BE PHENO MENAL

Ronaldo

RONALDO – “THE PHENOMENAL”

- One of the greatest footballers of all time
- Second highest scorer in World Cup history
- Two-time FIFA World Cup Winner (1994, 2002)
- Three-time FIFA World Player of the Year (1996, 1997, 2002)
- Two-time Ballon d'Or winner, the European Footballer of the Year (1997, 2002)

Ronaldo's Quote

"In Brazil, we play football anywhere – on the streets, the beach, indoors, outdoors, everywhere. This fits well with the Hong Kong landscape as a densely populated city. We can bring our classes to basketball and badminton courts, tennis facilities, playgrounds, and even to the beach. This trait of Brazilian football not only makes it more convenient for the classes but also trains the children to play creatively and with great flexibility. "

– Ronaldo –

Parent Testimonials

"I'm impressed at how my son has improved since his first practice; he feels more confident. He always looks forward to the next training class and keeps asking me about it!"

– May Chan, mother –

"The coach is very professional and extremely involved. He attended to all the kids on field, especially those who are not as good as the rest. He helped them get better in each class. It is nice to see the amount of dedication the coach has for the children and class."

– Janus Law, mother –

"The coach is energetic and very dynamic. He makes each training session a fantastic experience for my son. He showed us the joy of Ronaldo's 'Phenomenal' style football."

– Ben Wang, father –

"We love your class a lot! Different from traditional soccer training, kids react much faster and become more competitive."

– Jen Ang, mother –

The Phenomenon in Hong Kong

The **Ronaldo Academy** coaching methodology has been designed by Ronaldo and the Academy experts in Brazil with the intention of not only teaching the children and youth the highest standard of football skills, but also transmitting positive values of the game such as teamwork, respect, sportsmanship, perseverance, and determination. Drills and games are carefully planned according to the student's age and level with focus on four major areas of skill development:

- **technical skills** (passing, controlling, and dribbling the ball, etc.)
- **tactical skills** (numerical positioning and superiority, offense and defense, etc.)
- **physical skills** (balance, rhythm, laterality, spatial and temporal perception, etc.)
- **psychological skills** (discipline, passion for sports, and all the good values football can provide)
